(2) Important matters

1) Application and abolition of the toppings

[Universal]

- Toppings purchased through other companies' apps etc. will start to apply as soon as the purchase procedure is completed. However, [Toppings available during sign-up] will begin to apply from the time the prepaid code is applied.
- As for the entry code, its corresponding topping will start to apply when the SIM etc. of the povo2.0 contract involved in the entry code's registration is activated.
- If purchased through other companies' apps etc., usage fees will be paid at every purchase (not monthly) using a payment method we specify that is registered on your povo2.0;
- The communication to purchase toppings via other companies' apps etc., will consume data from your currently applied topping.
- Data toppings purchased at different times will have their respective expiry dates. Even if you purchase a new data topping before a previously purchased data topping expires, the expiry date of the previously purchased topping will not be extended.
- If your povo2.0 contract is canceled, the topping will stop and the remaining data allowance and the unlimited hours will be canceled.
- Cancellation is not accepted once the purchase procedure is completed.

[Unlimited data toppings]

- Until the unlimited-data period expires, you will be able to use communication regardless of the amount of data transmitted, without the Base Plan's (Japan SIM) speed limit of 128 kbps applying, or spending any previously purchased data.
- Counting 24 hours from the time the topping starts to apply as one day, the effective period will last until the time the number of days each data topping specifies has passed.
- Please note that for the time being, you will be able to use communication until the end of the last day of your effective period, without the Base Plan's (Japan SIM) speed limit of 128 kbps applying, or spending any previously purchased data.
- Additional unlimited data toppings are unavailable for purchase during the unlimited-data period.

[Unlimited data for eligible content]

- For toppings with an effective period of more than 24 hours, counting 24 hours from the time the topping starts to apply as one day, the effective period will last until the time the number of days each data topping specifies has passed.
- For toppings with an effective period of less than 24 hours, counting in hours from the time the topping starts to apply, the effective period will last until the number of hours each data topping specifies has passed.

- While this topping is applied, no new purchases of this topping may be made.
- For the toppings listed in (1) 「Data Free Meta (3 days) + Data Top-up 1GB (3 days) 【First Purchase】 」 , 「Data Free Meta (3 days) + Data Top-up 3GB (3 days) 【First Purchase】 」 , 「Data Free Meta (5 days) + Data Top-up 5GB (5 days) 【First Purchase】 」 , 「Data Free Meta (7 days) + Data Top-up 10GB (7 days) 【First Purchase】 」 , 「Data Free Meta (15 days) + Data Top-up 10GB (15 days) 【First Purchase】 」 , 「Data Free Meta (30 days) + Data Top-up 20GB (30 days) 【First Purchase】 」 , the following conditions apply with regards to the application and abolition of the topping and the communication speed limit.
 - The content eligible for unlimited data is Facebook, Messenger, Instagram, and WhatsApp. Until the effective period ends, communication for the eligible content will be available without the Base Plan's (Japan SIM) speed limit of 128 kbps applying, or spending any previously purchased data, regardless of the amount of data transmitted.
 - Communication identified as usage on eligible content with the “Controlling communication to provide service (communication identifying feature)” will be eligible for the unlimited data from this topping. However, if a large amount of data communication is used within a certain period of time, the communication speed will be limited during congestion (including usage with Toppings and Data Bonuses).
 - Communication unable to be identified by equipment of the company as usage on eligible content, due to reasons such as communication being routed through a proxy server, communication to content or advertisements provided by parties other than the company providing the eligible content via applications and websites provided by the company providing the eligible content, use of a VPN (Virtual Private Network), usage of browser security features, etc., will not be eligible for unlimited data.
